

Dear IREA Members:

IREA is now offering a Renewable Energy Credits Program for those who wish to support renewable energy sources. Renewable Energy Credits (RECs) represent the environmental attributes of renewable energy and can help offset conventional electricity generation.

As an IREA member, you now have the opportunity to purchase one of our two REC Products: 1) Wind RECs or 2) Solar RECs. Our Wind and Solar RECs are supplied by Xcel Energy.

Consumers have the option of purchasing either of the REC Products as a one time purchase or on a monthly basis. The current prices are as follows: 1 cent/kWh for Wind RECs and 5.5 cents/kWh for Solar RECs.

If you agree to purchase a REC Product, IREA will collect your due amount, designated by you, by adding a separate line item to your monthly billing statement. One time purchases will only be added to the next billing statement while monthly purchases will be added to your statement each month until you notify us in writing that you no longer wish to participate.

Please note this is a voluntary program and your selected purchase amount is in no way associated with your monthly electric usage and charges.

For more information on our REC products, please visit our website:
www.irea.coop/green-power#Renewable Energy Credits

[Please cut on dotted line and mail at your convenience or with your utility bill.]

RENEWABLE ENERGY CREDITS PURCHASE

Name: _____ IREA Account # _____

Mailing Address: _____

City _____ State _____ Zip _____
